Subject: RE: My tour to USA

Dear Sanjay,

I wanted to follow up with you in regards to this project. The team met today to review the square samples you submitted and there was positive response to the samples. We would like to further understand the cost of the product that would include packaging. Also, is there any way to get a sample with either a more "American" flavor such as cheddar, barbeque or just salt? A sample with no seasoning would also be helpful for the team to evaluate the types of seasoning we may want to add on.

In regards to a visit to Minneapolis I would like to discuss this opportunity with Ellen once she returns but I think we would like to sit down with you and discuss the project in person. I am working on the confidentiality agreement. It would be best if we had that in place for the meeting so we can discuss things in more detail.

Please let me know if there is any information you need from me at this time.

Kind regards
Jenny
